September 8, 2021

Dear LCA Parents,

This is to inform you that five students in our school have tested positive for COVID-19. We were notified by the students' families, and we wanted to pass the information on to you to keep you informed. If one of these students were in your child's classroom, you will receive an additional email. Please note that there is no evidence of student to student transmission within our building.

Contact tracing has been completed and those affected have been notified. As a reminder, we are following the Licking County Health Department guidance dated August 16, 2021 to help with this process. This document is attached to this email.

Our custodial staff continues to conduct the necessary cleaning and disinfecting procedures on high touch surfaces at the school.

As a reminder, if anyone in your household develops symptoms consistent with COVID-19 they should isolate at home and contact their healthcare provider. If anyone in your household is tested for COVID-19, they should stay home until the test results are received. If your child tests positive for COVID-19 please contact us immediately at 740-964-2211.

For more information regarding COVID-19 please visit LCHD's website at https://www.lickingcohealth.org/COVID-19.html Our staff continues to work with LCHD, and we will continue to implement their recommendations to control the spread of COVID-19 in our community.

Sincerely,

Mr. Jeremy L. Blythe
Director of Operations
